

Cloud Native Computing Foundation Certification and Confidentiality Agreement

The Cloud Native Computing Foundation (“CNCF”) is a project of The Linux Foundation. This Agreement is entered into between you and the The Linux Foundation as of the date of your exam registration (the “Effective Date”), and sets forth, among other provisions, your requirements with respect to certain certification exams involving CNCF offered by The Linux Foundation.

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, The Linux Foundation and you agree as follows:

1 Definitions

1.1 “Certification(s)” means any professional certification programs offered by The Linux Foundation on behalf of CNCF.

1.2 “Program(s)” means the Certification programs offered by The Linux Foundation on behalf of CNCF under this Agreement.

1.3 “Exam Proctoring Partner” means the entity engaged by The Linux Foundation to administer the applicable examination.

1.4 “Mark” means one of the trademarks and logos related to CNCF Certification of the form “Certified Kubernetes _____,” such as “Certified Kubernetes Administrator.”

1.5 “Examination” or “Exams” means a test provided by The Linux Foundation, possibly through an Exam Proctoring Partner, which is used to determine whether to issue Certification(s).

2. Confidentiality and Intellectual Property Ownership

2.1 Confidentiality

The Linux Foundation makes exams available to you solely to test your knowledge of the exam subject matter for which you seek Certification. You are expressly prohibited from disclosing, publishing, reproducing, or transmitting any exam and any related information including, without limitation, questions, answers, worksheets, computations, drawings, diagrams, length or number of exam segments or questions, or any communication, including oral communication, regarding or related to the exam (known collectively as “Confidential Information”), in whole or in part, in any form or by any means, oral or written, electronic or mechanical, for any purpose.

Confidential Information includes the contents of the exam, which may not be disclosed as set forth above, including to any employee of The Linux Foundation not affiliated with the CNCF Certification Program. A disclosure of Confidential Information by any means in violation of this Agreement undermines the integrity and security of the Program. Information relating to current or future versions of Kubernetes system components, or other materials that are made available

under an open source license, is not considered Confidential Information under this Agreement.

2.2 Intellectual Property Ownership

Examination Materials are the proprietary, confidential and copyrighted materials of The Linux Foundation (except open source materials incorporated therein, which may have other copyright holders and are used pursuant to the applicable open source license). Violators of copyright law are subject to injunctions, civil liability, forfeiture of profits, punitive damages and other legal sanctions. The Linux Foundation will take appropriate legal action against you to protect The Linux Foundation's rights if you breach the provisions of this Section.

3. Certification

3.1 Certification Requirements

Certification is based upon a candidate meeting the minimum requirements of the Program, including achieving passing scores on required examinations in accordance with The Linux Foundation's testing guidelines. If you meet these requirements you will receive a certificate from The Linux Foundation signifying your accomplishment. Program requirements for Certification and renewal of Certification are available on the CNCF website at <https://www.cncf.io/certification/expert/> and include the requirements set forth in this Agreement.

Certification is only available for natural persons, not corporations or other legal entities. Should the candidate misuse any certificate or Mark, appropriate action may be taken in The Linux Foundation's sole discretion to resolve the case and prevent recurrence. You agree to comply with all of The Linux Foundation's requests and demands from time to time regarding your use of the Marks. Misuse may give rise to Certifications being withdrawn and legal action being taken in The Linux Foundation's sole discretion. (Use of Marks is defined in [Section 3.6.](#))

3.2 Certification Period

Certifications expire 24 months from the date that the Program certification requirements are met by a candidate. Candidates must meet Certification renewal requirements prior to the expiration date of their certification in order to maintain active certification. If Certification renewal requirements are not met before the expiration date, Certification will be deemed revoked without further action by The Linux Foundation and this Agreement shall terminate effective as of the expiration date, subject to the provisions of [Section 12.3.](#)

3.3 Program Changes

The Linux Foundation may, in its sole discretion, change the Program without notice. Such changes may include, without limitation, adding or deleting available Certifications and modifying Certification requirements, testing objectives, outlines, recommended training courses, and exams. It is your responsibility to keep informed of any such modifications and if applicable, to complete new requirements for maintaining and/or renewing Certification. If any CNCF Certification requirements are modified, this Agreement and your CNCF Certification may be terminated by The Linux Foundation without further notice, unless you adhere to any applicable CNCF Certification requirements.

3.4 Certification Revocation

The Linux Foundation may revoke any Certification if you fail to comply with Certification renewal requirements or other Certification requirements. In addition, The Linux Foundation may, in its sole discretion, revoke any and all Certifications you may have earned and permanently ban you from earning future Certifications under any of the following circumstances:

- If you use profanity, threaten to harm, bully or in any way harass any employee or contractor of The Linux Foundation or any Exam Proctoring Partner (whether verbally or in writing, including through electronic communications or external web postings);
- If you breach the terms and conditions of this Agreement;
- If The Linux Foundation determines, in its sole discretion pursuant to [Section 6](#), that you have undertaken or participated in Exam Misconduct as defined in [Section 4.3](#) or violated the Professional Code of Conduct as defined in [Section 5](#);
- If you have been convicted of a crime that The Linux Foundation deems, in its sole discretion, in any way harms or affects the reputation, goodwill or security of The Linux Foundation, CNCF or the Program; or
- If you have lost or settled a civil case in which The Linux Foundation is the plaintiff and the claim arose from any alleged damage to The Linux Foundation, its brand, goodwill or reputation or the brand, goodwill or reputation of any project of The Linux Foundation including CNCF.

3.5 Certification of Minors

If you are under the age of 18 years old, you are not eligible for testing or Certification. The Linux Foundation reserves the right to impose additional restrictions to comply with local data protection laws.

3.6 Use Of “Certified Kubernetes Administrator” and “Certified Kubernetes Application Developer” Trademark(s)

If you successfully pass an Exam and receive written indication from The Linux Foundation that you may use the Mark corresponding to the Exam, then The Linux Foundation grants you a nonexclusive revocable license to use that Mark for the purpose of indicating that you have achieved the Certification. This license will terminate immediately (a) upon a breach of any of the material terms of this Agreement, (b) upon termination of this Agreement, or (c) if The Linux Foundation notifies you of a violation of the rules regarding your use of the Mark and **within seven days**, in the sole discretion of The Linux Foundation, such violation of the rules is not corrected. The rules are:

- You shall not use the Mark for any purpose other than to indicate your status as having been Certified.
- The only person to use the mark will be you in your capacity as an individual; you will not allow its use by any other person or legal entity on your behalf.
- You agree that your use of the Mark may be terminated at any time if, in the sole discretion of The Linux Foundation, The Linux Foundation determines that you are in breach of this agreement.
- You agree to only use the Mark in the form provided to you by The Linux Foundation, and not to modify the color, text, proportions or other aspects of the Mark except for the

size, which may be adjusted in even proportion.

- You agree not to take any action that might injure the brand image and/or goodwill embodied in the Mark, or in any other marks owned or licensed by The Linux Foundation, including without limitation the “Kubernetes” or “Cloud Native Computing Foundation” trademarks.
- You agree not to make partial or entire use of the Mark as part of your own name or business name, and will not combine the Mark with any other of your marks or logos.
- You agree that all right, title, and interest in the Mark shall remain with The Linux Foundation and that all use of the Mark by you will inure to the benefit of The Linux Foundation. You agree not to challenge the ownership or any other rights of The Linux Foundation in the Mark, or other marks licensed or owned by The Linux Foundation, including without limitation “Kubernetes” and “the Cloud Native Computing Foundation.”
- You will not file in any application or registration for any trademark that is similar or identical to the Mark or to any other marks owned by The Linux Foundation.
- You will abide by The Linux Foundation Trademark Usage Guidelines set forth on the Linux Foundation’s website at <https://www.linuxfoundation.org/trademark-usage>, as modified from time to time, with regards to all of your use of the Mark.
