

Certified Kubernetes

Security Specialist (CKS)

Sample Curriculum Path

If you're interested in becoming a **Certified Kubernetes Security Specialist (CKS)**, you may consider following the curriculum path below. Depending on experience level, with these resources and additional research, study, and practice, you can earn your certification in 3-6 months.

Start by enrolling in these free courses:

| | | | | |
|---|--|---|---|--|
| FREE Introduction to Cloud Infrastructure Technologies LFS151 | FREE Introduction to Kubernetes LFS158 | FREE Introduction to Service Mesh with Linkerd LFS143 | FREE Introduction to Kubernetes on Edge with k3s LFS156 | FREE Introduction to Serverless on Kubernetes LFS157 |
|---|--|---|---|--|

Then consider intermediate training:

| | | | | |
|--|--|-----|--|---|
| Kubernetes Fundamentals LFS258 | Certified Kubernetes Administrator CKA | AND | Kubernetes for Developers LFD259 | Certified Kubernetes Application Developer CKAD |
|--|--|-----|--|---|

Prepare for your exam and increase your chances of becoming certified on the first try by taking:

Kubernetes Security Essentials LFS260

Finally, register and sit for your exam:

Certified Kubernetes Security Specialist CKS

Congratulations!

Upon passing the exam, you are now a Certified Kubernetes Security Specialist.

Be sure to add your badge to your LinkedIn, LFX and GitHub profiles. This will help you better connect with those in your community and also distinguish yourself as certified for future prospective employers.
