

Certified TARS Application

Developer (CTAD)

Sample Curriculum Path

If you're interested in becoming a Certified TARS Application Developer (CTAD), you may consider following the curriculum path below. Depending on experience level, with these resources and additional research, study, and practice, you can earn your certification in 3-6 months.

Start by enrolling in these free courses:

FREE
Introduction to Cloud Infrastructure Technologies
LFS151

FREE
Introduction to Kubernetes
LFS158

FREE
Building Microservice Platforms with TARS
LFS153

Then consider intermediate training:

Containers Fundamentals
LFS253

Containers for Developers and Quality Assurance
LFD254

Kubernetes for Developers
LFD259

Finally, register and sit for your exam:

Certified TARS Application Developer CTAD

Congratulations!

Upon passing the exam, you are now a Certified TARS Application Developer.

Be sure to add your badge to your LinkedIn, LFX and GitHub profiles. This will help you better connect with those in your community and also distinguish yourself as certified for future prospective employers.

What comes next?

After completing your CTAD, you can pursue a [Certified Kubernetes Administrator \(CKA\)](#) or [Certified Kubernetes Application Developer \(CKAD\)](#) as a next step.
